## COURSE OBJECTIVES AND GOALS

- To enhance the efficiency and productivity of our podiatric practices
- To develop a better understanding of the medical/surgical approaches to foot and ankle trauma
- To put sports medicine into proper perspective for all of our practices
- To acquire additional insight into the management of first ray pathomechanics
- To develop an understanding of the newest techniques in arthrodesis of the foot and ankle
- To show the newest approaches and treatment for lesions and tumors of the lower extremity
- To put rearfoot pathology "front and center"
- To appreciate the concepts of "misery loves company" in sharing bizarre and problematic cases with our distinguished speakers, colleagues and residents

The profession's support of the seminar has afforded the ACADEMY the opportunity to provide scholarships for our residents, students at KSUCPM and funds to support our state association, for over 25 years.

*Thank You for your Support, Past, Present and Future.*
